 <p>U.S. ENVIRONMENTAL PROTECTION AGENCY Office of Pesticide Programs Registration Division (7505P) 1200 Pennsylvania Ave., N.W. Washington, D.C. 20460</p> <p>NOTICE OF PESTICIDE: <input checked="" type="checkbox"/> Registration <input type="checkbox"/> Reregistration (under FIFRA, as amended)</p>	<p>EPA Reg. Number: 961-423</p>	<p>Date of Issuance: 09/12/2014</p>
	<p>Term of Issuance: Conditional</p>	
	<p>Name of Pesticide Product: Southern Preen Plus Bifenthrin</p>	
<p>Name and Address of Registrant (include ZIP Code): Lebanon Seaboard Corporation 1600 East Cumberland Street Lebanon, PA 17042</p>		
<p>Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.</p>		
<p>On the basis of information furnished by the registrant, the above named pesticide is hereby registered under the Federal Insecticide, Fungicide and Rodenticide Act.</p> <p>Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.</p> <p>This product is conditionally registered in accordance with FIFRA section 3(c)(7)(A). You must comply with the following conditions:</p> <ol style="list-style-type: none"> 1. Submit and/or cite all data required for registration/reregistration/registration review of your product under FIFRA when the Agency requires all registrants of similar products to submit such data. 		
<p>Signature of Approving Official: <i>See Next Page</i> Richard Gebken, Product Manager 10 Insecticide Branch, Registration Division (7505P)</p>	<p>Date: 09/12/2014</p>	

2. You are required to comply with the GDCI Order identified below:

a. Bifenthrin GDCI-128825-1158, issued on 11/16/2012

You must comply with all of the data requirements within the deadlines established by the order. If you have questions about the Generic DCI Order listed above, you may contact the Chemical Review Manager in the Pesticide Reevaluation Division:

http://www.epa.gov/oppsrrd1/contacts_prd.htm

3. The data requirements for storage stability and corrosion characteristics (Guidelines 830.6317 and 830.6320) are not satisfied. A one year study is required to satisfy these data requirements. You have 18 months from the date of registration to provide these data.

4. Make the following label changes before you release the product for shipment:

- Revise the EPA Registration Number to read, "EPA Reg. No. 961-423."

5. Submit one copy of the final printed label for the record before you release the product for shipment.

If you fail to satisfy these data requirements, EPA will consider appropriate regulatory action including, among other things, cancellation under FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions. A stamped copy of the label is enclosed for your records. Please also note that the record for this product currently contains the following CSFs:

- Basic CSF dated 12/10/2013
- Alternate CSF #1 dated 12/10/2013

If you have any questions, please contact BeWanda Alexander at (703) 305-7460 or alexander.bewanda@epa.gov.

KEEP OUT OF REACH OF CHILDREN

CAUTION

See [booklet or back panel] for First Aid and additional Precautionary Statements

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION

Harmful if swallowed, absorbed through the skin or inhaled. Causes moderate eye irritation. Avoid contact with eyes, skin or clothing. Prolonged or frequently repeated skin contact may cause allergic reaction in some individuals. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove and wash contaminated clothing before reuse.

FIRST AID	
IF IN EYES	<ul style="list-style-type: none"> • Hold eye open and rinse slowly and gently with water for 15-20 minutes. • Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. • Call a poison control center or doctor for treatment advice.
IF SWALLOWED	<ul style="list-style-type: none"> • Call a poison control center or doctor immediately for treatment advice. • Have a person sip a glass of water if able to swallow. • Do not induce vomiting unless told to do so by a poison control center or doctor. • Do not give anything by mouth to an unconscious person.
IF ON SKIN OR CLOTHING	<ul style="list-style-type: none"> • Take off contaminated clothing. • Rinse skin immediately with plenty of water for 15-20 minutes. • Call a poison control center or doctor for treatment advice.
IF INHALED	<ul style="list-style-type: none"> • Move person to fresh air. • If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. • Call a poison control center or doctor for further treatment advice.
<p>Have the product container or label with you when calling a poison control center or doctor, or going for treatment. For emergency medical treatment information call (888) 208-1368.</p>	
<p>Note to Physician: This product contains a pyrethroid. If large amounts have been ingested, milk, cream or other digestible fats and oils may increase absorption and so should be avoided.</p>	

ENVIRONMENTAL HAZARDS

This product is extremely toxic to fish and aquatic invertebrates. To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather will help to ensure that wind does not blow pesticide off the treatment area. Sweeping any product that lands on a driveway, sidewalk, or street, back onto the treated area of the garden will help to prevent run off to water bodies or drainage systems.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

STOP! READ THE ENTIRE LABEL FIRST. OBSERVE ALL PRECAUTIONS AND FOLLOW DIRECTIONS CAREFULLY.

PRODUCT INFORMATION

This product] contains an insecticide for controlling listed insects and an herbicide that prevents most listed weeds from germinating.

One application of this product provides up to 4 months control of listed broadleaf weeds and annual grasses in [xeriscapes settings] [rock gardens] [Southwest] [ornamental] [and] [flower beds][,] [and around ground covers, trees and shrubs.] [Although this product will not kill existing weeds, it will prevent new listed weeds from sprouting – eliminating the need for difficult and time-consuming hand weeding.] [Without listed weeds and insect pests your valuable plants can grow larger and stronger.]

This product provides up to 1 month [4] [weeks] control of listed insects.

PRODUCT RESTRICTIONS

Use only on established ornamental plants listed in this label.

Do not apply near fish pools, ponds, streams or lakes.

Do not use on vegetable gardens or lawns.

ENTRY RESTRICTIONS

Do not allow people or pets to enter the treated area until dusts have settled. If product is watered-in, do not enter or allow others to enter the treated areas (except those involved in the watering) until the watering-in is complete and the surface is dry.

WEEDS CONTROLLED

Grassy Weeds:

Barley	Barnyardgrass	Bluegrass, annual	Brome	Buttercup	Crabgrass, large
Crabgrass, smooth	Crabgrass, Southern	Crowfootgrass	Dallisgrass (seedling)	Goosegrass	Foxtail, green
Foxtail, yellow	Kikuyugrass	Oats, wild	Ryegrass, annual	Ryegrass, perennial	Sandbur
Smutgrass					

Broadleaf Weeds:

Bittercress	Carpetweed	Chickweed	Geranium, Carolina	Henbit	Knotweed, prostrate
Lespedeza, common	Lambsquarters	Marestail	Medic, black	Mustard	Pineappleweed
Pigweed, redroot	Parsely-piert	Purslane, common	Rocket, London	Shepherdspurse	Speedwell, corn
Spurge, garden	Spurge, prostrate	Spurge, spotted	Woodsorrel, creeping	Woodsorrel, yellow	

6/59

INSECTS CONTROLLED [AND/OR SUPPRESSED]

- Annual Bluegrass Weevils (Hyperodes) (Adult)
- Ants
- Armyworms
- Billbugs (Adult)
- Crickets
- Cutworms
- Black Turfgrass Ataenius (Adult)
- Centipedes
- Chinch Bugs
- Earwigs
- Grasshoppers
- Leafhoppers
- Mealybugs
- Millipedes
- Mole Cricket (Adult)
- Mole Cricket (Nymph)
- Sod Webworm

[Note to Reviewer Pest Efficacy is from EPA Reg. No. 228-496 & 228-498]

WHEN TO APPLY [THIS PRODUCT]

Apply this product during the growing season around established plants and transplants[.] [in [xeriscape settings][,] [in] [rock gardens] [and] [in] [flower] [perennial] [beds][,] [and] [around] [perennials,] [ground covers,] [trees] [and] [shrubs].]

To keep ornamental beds free all season long of listed weeds and insects, reapply this product every 4 months

HOW TO APPLY [THIS PRODUCT]

[[Since] this product will not kill existing weeds, remove any weeds that have already begun to grow before applying this product around established plants and transplants.]

[For best results, remove all existing weeds before applying this product around established plants and transplants.] [Do not use this product on flower seeds.] This product can be used after flowering plants have germinated and are 2-3 inches tall.]

To avoid plant injury, do not apply this product when plant foliage is wet. When plants are dry, sprinkle this product evenly over the soil surface at rate of 0.68 oz. per 10 sq.ft. (see picture below [above] [on right] [on left]), being sure to keep granules away from plant roots and foliage. Wash or brush off stray granules from plant foliage to avoid damage or discoloration.

After application, water this product into soil surface. Do not water to the point of run-off. Once activated by watering, this product forms a barrier in the top layer of soil, preventing listed weed seeds

from germinating and killing listed insects on contact. Disturbance to the soil surface after activation may result in erratic control.

[Note to EPA Reviewer, not to appear on final master label.

The use rate of 0.68 oz./ 10 sq ft = 68 oz. or 4.25 lb./ 1,000 sq ft.

For dithiopyr @ 0.27% this = 0.011475 lb ai/ 1,000 sq ft or 0.5 lb ai/acre.
See WK08201, EPA Reg. No. 961-410

For bifenthrin @0.11% this = 0.004675 lb ai/ 1,000 sq ft or 0.2 lb ai/acre
See Bifenthrin 0.2% Granule Insecticide, EPA Reg. No. 228-498]

[Make no more than 2 applications per site per year.]

[Do not apply more than [4.25] [X.XX] lbs. of this product per [1,000] [X,XXX] sq.ft. per application, and no more than [8.5] [XX.XX] lbs. of this product per [1,000] [X,XXX] sq.ft. per year.]

[Note to reviewer: this product will not be offered for sale in the state of NY]

SURFACE APPLICATION RATE

Sprinkle this product as shown on soil surface[.]

[APPLYING [THIS PRODUCT] ON MULCH]

[For best listed weed and insect control, apply this product after spreading mulch on your flower and shrub beds. Sprinkle this product on top of mulch at surface rate (see picture on [below] [above] [at right] [at left]), being sure to keep granules away from plant foliage. Water this product into mulch. Always wash or brush off stray granules from plant foliage to avoid damage or discoloration.]

‡ Ornamental species only. Do not use on plants grown for food.

[Users who wish to use this product on plant species not listed on this label may determine the suitability for use by treating a small number of such plants. Prior to treatment of larger areas, the treated plants should be observed for any sign of herbicidal injury for 30 to 60 days of normal growing conditions. The user assumes responsibility for any plant damage or other liability resulting from use of this product on plant species not listed in this label.]

REFILL INSTRUCTIONS

[Optional for reusable rigid plastic container with application device] [This container with applicator cap is reusable with this product. Refill the container with desired amount of this product and use as directed. When done, store or dispose this container as listed on the label.]

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.
Pesticide Storage: Store product in its original container in a cool, dry, locked place out of the reach of children and animals.
Pesticide Disposal and Container Handling: Nonrefillable container. Do not reuse or refill this container. If empty: Place in trash or offer for recycling if available. If partly filled: Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

[Optional Storage and Disposal statement for use with reusable containers]

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.
Pesticide Storage: Store product in its original container in a cool, dry, locked place out of the reach of children and animals.

5/15/9

37. Battery-powered

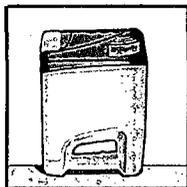

38. Weighs only [xx] lbs. when container is full.

39. R2G

40. Exceptional value – listed weed [killer] [control], insect** [killer] [control] and spreader in one

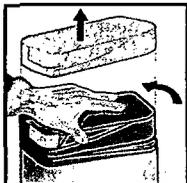

41. Ready2Go Spreader™ Directions: [Getting started] [(First time use)]

- [1] PLACE the Ready2Go Spreader™ UPSIDE DOWN on a flat surface (the [GREEN] [any color] BASE facing up).

- [Optional Pictogram or image]

- [2] HOLD the container steady and TURN the base COUNTER-CLOCKWISE [(to left)] until it STOPS and LIFT to remove. [Approximately quarter turn]

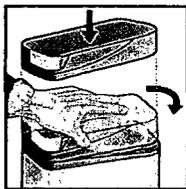

- [Optional Pictogram or image]

- [3] REMOVE the protective seal from the round opening, and [in one smooth movement] PULL the tab from the battery compartment.

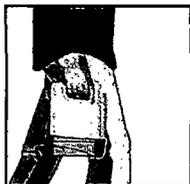

- [Optional Pictogram or image]

- [4] REALIGN the protruding tabs on the base with the slots on the container and TURN CLOCKWISE [(to right)] until the base LOCKS back in its original position.

[Optional Pictogram or image]

- [5] FLIP the Ready2Go Spreader™ back to the UPRIGHT position. The Ready2Go Spreader™ is now ready to use.

[Optional Pictogram or image]

42. First time use

- Place unit upside down on a flat surface [as shown].
- [1] Turn the [green] [any color] [R2G] spreader base counterclockwise a quarter turn and [2] lift to remove.
- Remove the protective seal on the container.
- Remove the battery compartment pull tab to [activate] [power the unit].
- [While still in an inverted position], realign the spreader base, with the container. Twist clockwise to lock into position.
- Flip it to the upright position and you are ready to begin applying product.

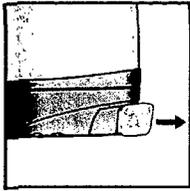

43. Directions for applying the product [or product name] to your [landscape] [ornamental] [flower] [annual] [bed] [garden]:

- [1] Move to the area to be treated.

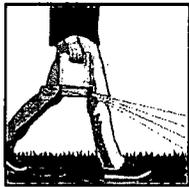

[Optional Pictograms or images]

- POSITION the Ready2Go Spreader™ comfortably [at] [by] your side (arm fully extended), over the target area, and TURN ON by pulling back the on/off slide switch.

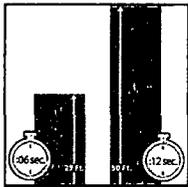

[Optional Pictograms or images]

- [2] When product begins spreading, WALK over the application area at a NORMAL WALKING PACE

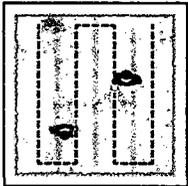

[Optional Pictogram or image]

- (([6] [X] seconds for a [25'] [X'] strip).

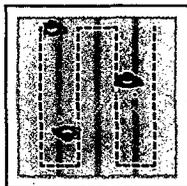

[Optional Pictogram or image]

- CONTINUE to within [2'] [two feet] of the end of the application area, and begin a new row by taking [2] [TWO] STEPS TO THE RIGHT OR LEFT, and walk back parallel to your first row. There should be a SLIGHT OVERLAP to the spread radius.

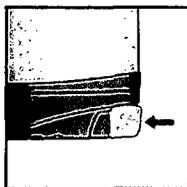

[Optional Pictogram or image]

- CONTINUE in this manner until you have finished applying the product.

[Optional Pictogram or image]

- [3] TURN OFF the Ready2Go Spreader™ by PUSHING IN the slide switch.

[Optional Pictogram or image]

- If product remains, store in a cool, dry place. If empty and the application is finished, simply refill the container.

44. Applying product with the Ready2Go Spreader™ applicator:

45. To Apply:

- Be sure you are on the area to be treated.
- Hold the spreader comfortably at your side with arm fully extended downward.
- Pull the [yellow] [any color] slide switch at the side-back of the spreader/container ON and begin walking to apply.
- Apply according to the application instructions (pace) and pattern diagram (pattern) for best results.
- When product is depleted, push the [yellow] [any color] slide switch IN to turn the spreader OFF.
- If product remains, store in a cool, dry place. If empty and the application is finished, simply refill the container.

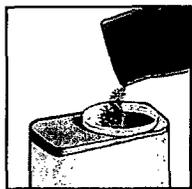

46. Target pace

47. Desired pattern

48. Refilling your Ready2Go Spreader™: [To refill your R2G spreader container:]

- PLACE the Ready2Go Spreader™ UPSIDE DOWN on a flat surface [the [GREEN] [any color] BASE facing up].

- HOLD the container steady while TURNING the base COUNTER-CLOCKWISE until it STOPS and LIFT to remove.
- CUT a corner opening on the [SOUTHERN PREEN PLUS BIFENTHRIN or product name] refill bag, and pour into the Ready2Go Spreader™ until the container is FULL.

[Optional Pictogram or image]

- Replace the spreader unit base. [Align tabs and slots and twist clockwise into place]
- FLIP the Ready2Go Spreader™ to the UPRIGHT position. The Ready2Go Spreader™ is now ready to operate. Follow application instructions.

49. To refill your Ready2Go Spreader™ container, while in the off position, flip the unit and place it on a flat surface.

- Holding the container steady, grip the [green] [any color] base and twist it a quarter turn counterclockwise until it stops. Simply lift to remove.
- Open the refill bag, and pour contents into the container base until full.
- Replace the spreader unit base. [Align tabs and slots and twist clockwise into place]
- Return the container to an upright position and you are ready to go! Follow application instructions.

50. To replace batteries:

- Access the battery compartment on the inside of the spreader base.
- Battery compartment door opens by pinching tab and lifting to open.

51. Requires [1] [2] [3] [4] [AA] [AAA] [C] [D] batteries (included).

52. Batteries are [disengaged] [inactivated] for shipment. [Simply pull [protection] [protective] tab from battery compartment to engage battery power.]

Use [Battery type] batteries.

53. Rechargeable batteries may be used.

54. Batteries included, but disabled for shipment. Pull tab from battery compartment to activate.

55. Pull tab to activate batteries.

56. Do not mix old and new batteries.

57. Do not mix alkaline, standard (carbon-zinc), or rechargeable [(ni-cad, ni-mh, etc)] batteries.

58. Save time, easy to apply
